

GEMMA

“Olivia's
Naughty
Request”

Page 1

Panel 1

Gemma is working when Olivia comes by with an order. Gemma asks her why she doesn't just ask Werner; he could probably do it easily.

Olivia replies that it's a special request, better to ask a girl.

Panel 2

Gemma opens the blueprints and looks at her mischievously.

Panel 3

Olivia argues that in these places one feels very lonely and that she can also be helpful on missions; this one is special. She hands over the materials she'll introduce, warning her to be careful.

—I always am— Gemma replies.

Page 2

Panel 4

Since it's a special request, Gemma does it in an enclosed space, a shop.

Panel 5

And to get more comfortable, she takes off her jacket and starts working.

Panel 6

She unfolds the blueprints, and we see the design of a special dildo.

Page 3

Panel 7

Outside, there's a commotion; the hunter alet a creature has been sighted. Everyone grabs their Seikrets and rushes out.

Panel 8

Gemma's own hammering prevents her from hearing what's happening.

Panel 10

Back at the camp, Gemma carefully unwraps the dildo and puts the materials inside: Mega Demon Drug and Seeds.

Panel 11

Gemma finishes the dildo, which has armored spheres at its base and a sort of grinder inside

Page 4

Panel 12

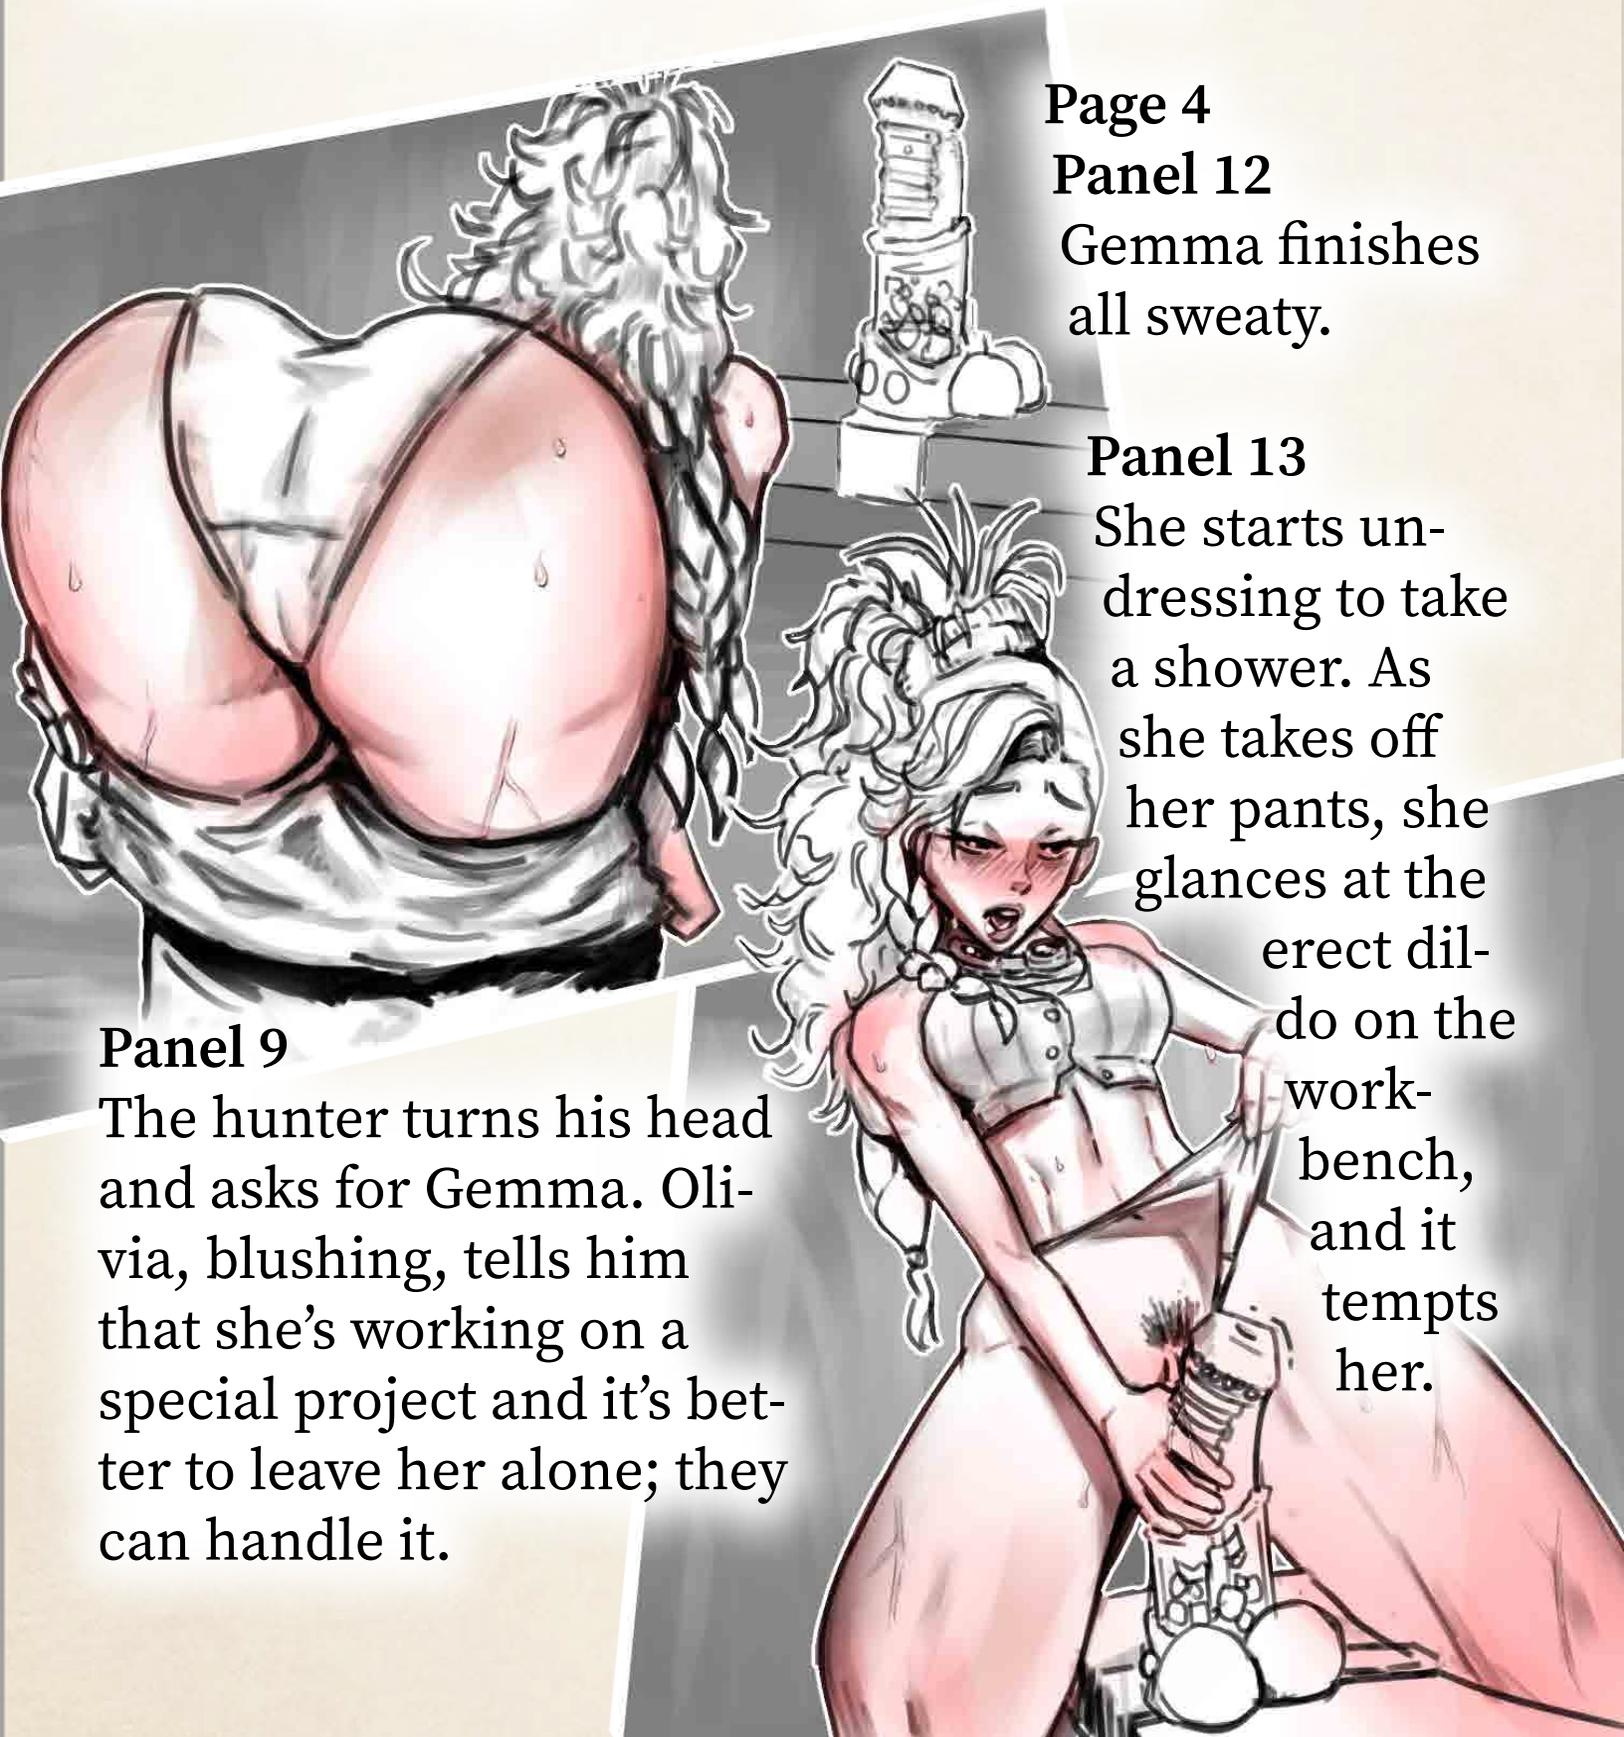

Gemma finishes all sweaty.

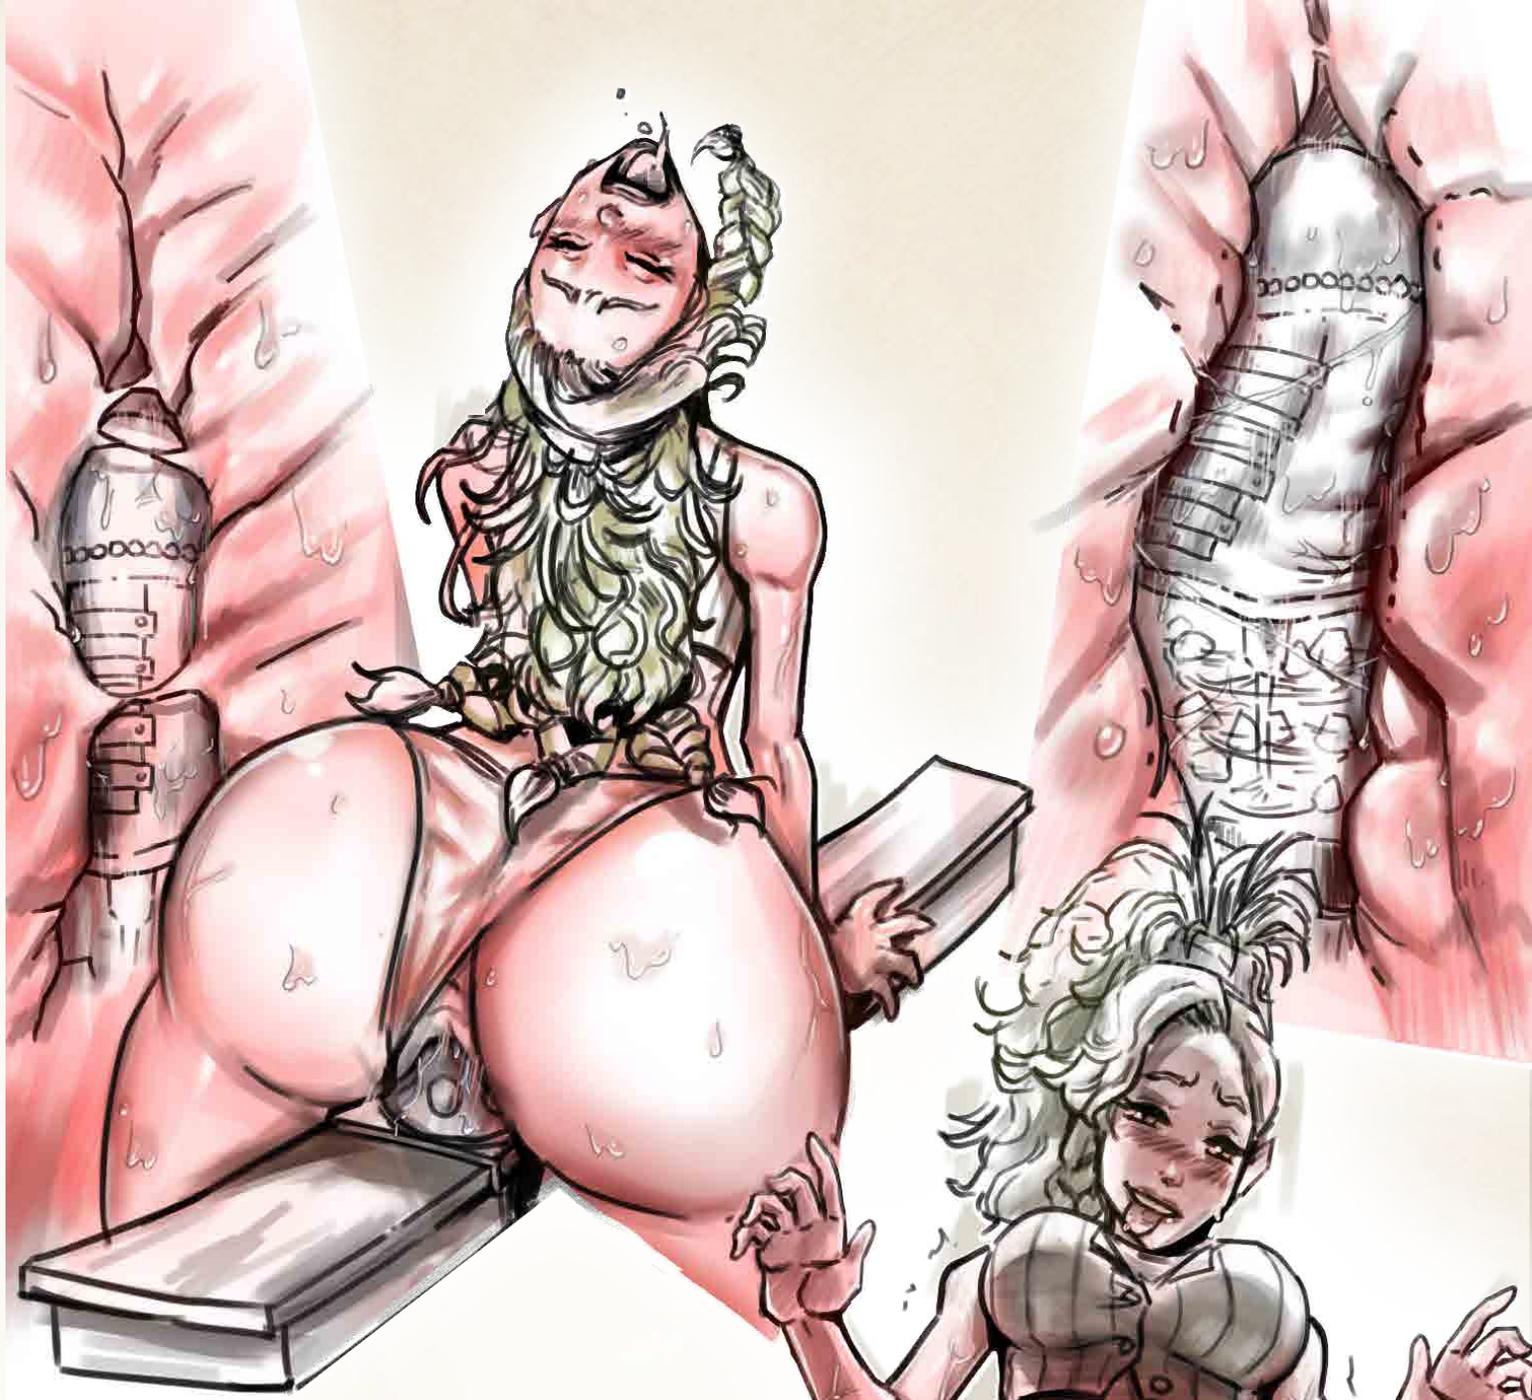

Panel 13

She starts undressing to take a shower. As she takes off her pants, she glances at the erect dildo on the workbench, and it tempts her.

Panel 9

The hunter turns his head and asks for Gemma. Olivia, blushing, tells him that she's working on a special project and it's better to leave her alone; they can handle it.

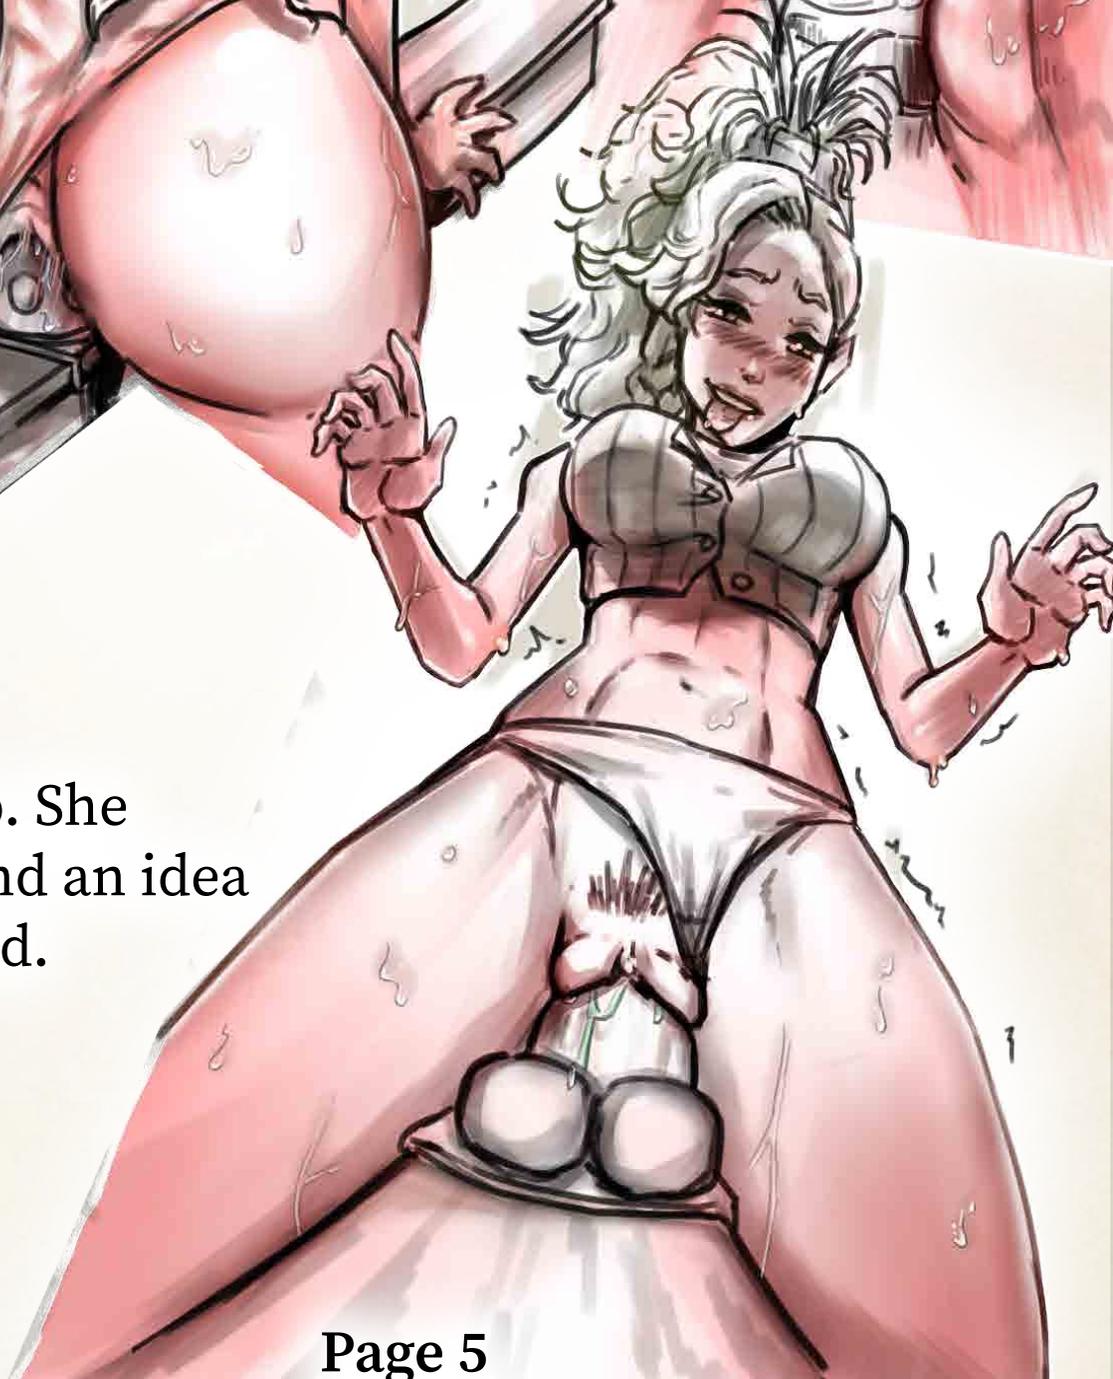

Panel 14

She bites her lip. She approaches it and an idea crosses her mind.

Panel 15

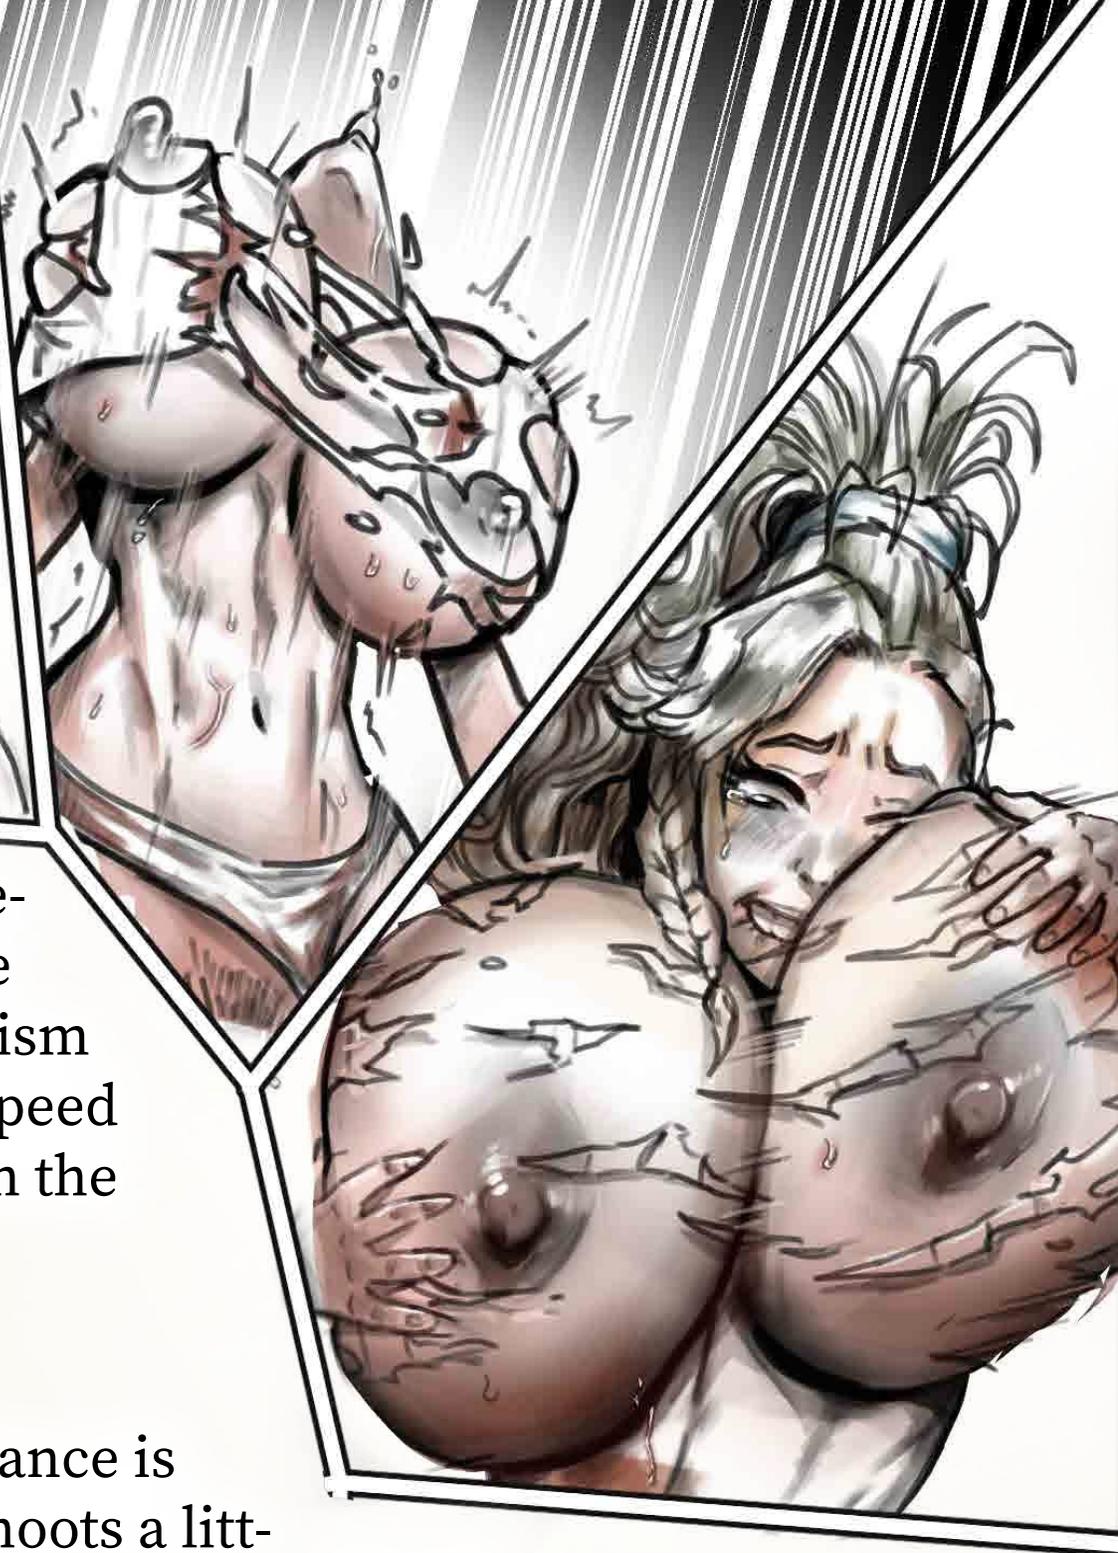

Why not? It'll just be a little. Besides, she needs to test if the mechanism works. She sways a bit to create space in her matrix and lets out a small gasp of pleasure

Page 5

Panel 16

She slowly inserts it, and the grinder activates, breaking up the seeds that mix with the Mega Demon

Drug. Her movements cause the kinetic mechanism of the dildo to speed up or slow down the grinder.

Panel 17

When the substance is well mixed, it shoots a little inside Gemma.

Panel 18

She feels it a little cold and that makes her shiver. A second passes, and then something else makes her tremble. It's no longer the cold; something in her body feels different and very pleasurable. She craves more.

Page 6

Panel 19

The excitement prevents her from noticing how her breasts suddenly overflow, bursting out of her shirt and tearing it.

Panel 20

Each time she has to bend down a little further on the workbench because her legs are getting longer and longer.

Panel 21

With each bounce, her butt cracks the workbench.

But she can't stop; the dildo is releasing more and more fluid inside, and the grinder is working at full speed.

Page 7

Panel 22

With her legs, she begins to knock down and destroy everything around her until they are so long that she can no longer reach the workbench.

Panel 23

What she does is lift it with her hands and change to a more comfortable position, with her legs together and raised. And she inserts it again and again and again.

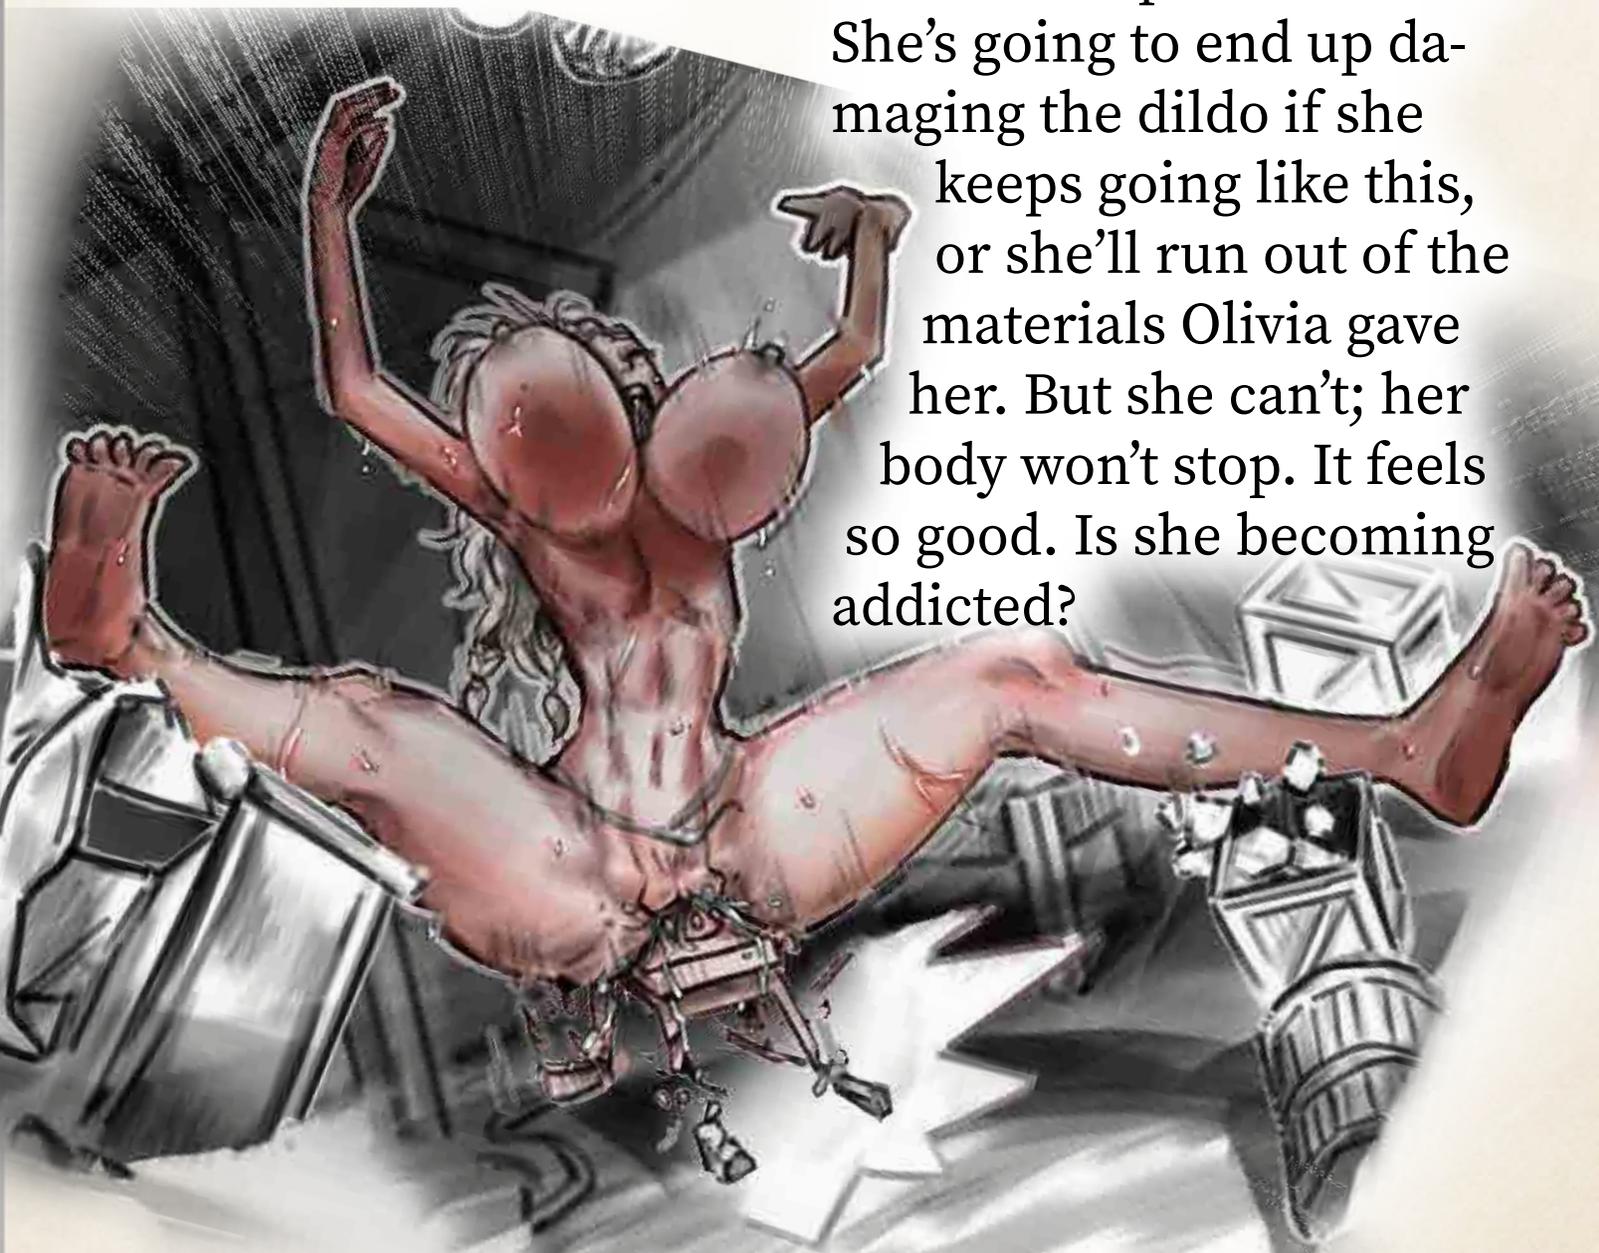

With each penetration, it grows a little more.

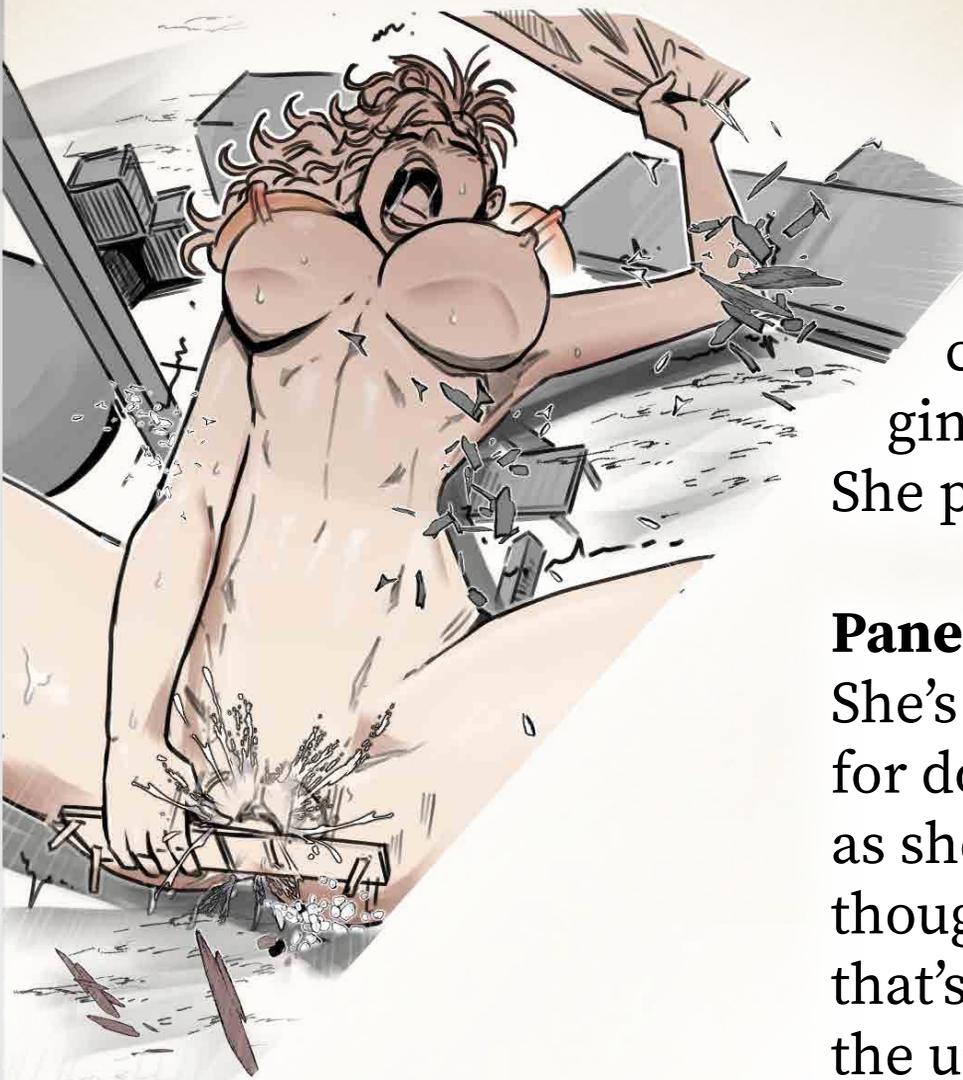

The tent is already too small for her size.

Page 8

Panel 24

Gemma tries to stop, she wants to stop in her mind. She's going to end up damaging the dildo if she keeps going like this, or she'll run out of the materials Olivia gave her. But she can't; her body won't stop. It feels so good. Is she becoming addicted?

Panel 25

Finally, it's so big that the tent falls apart, leaving her body exposed for everyone in the camp to see, which embarrasses her and excites her even more. But wait, there's no one there. No Seikrets.

Page 9

Panel 26

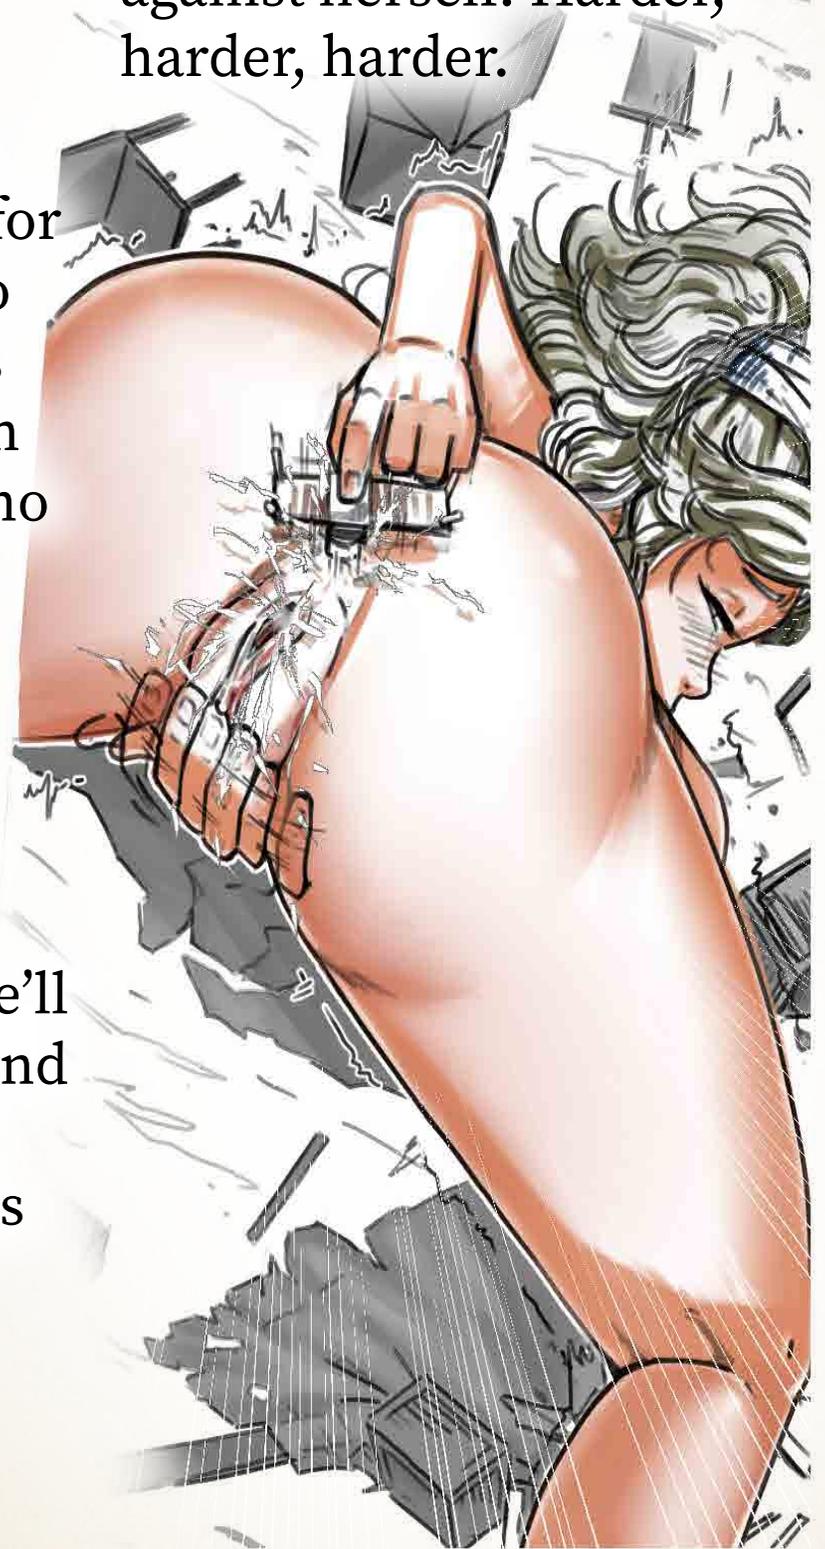

She needs to check, but she can't stop... She comes to a conclusion: she'll thrust with such force and such vigor that she'll be satisfied, or the contents will run out.

Panel 27

She's decided, but before she can notice, it's not in her vagina that she inserts it. She puts it in her ass.

Panel 28

She's surprised at herself for doing that. But as soon as she thinks about it, the thought fades away; all that's left is pleasure and the urge to slam the dildo against herself. Harder, harder, harder.

Page 10

Panel 29

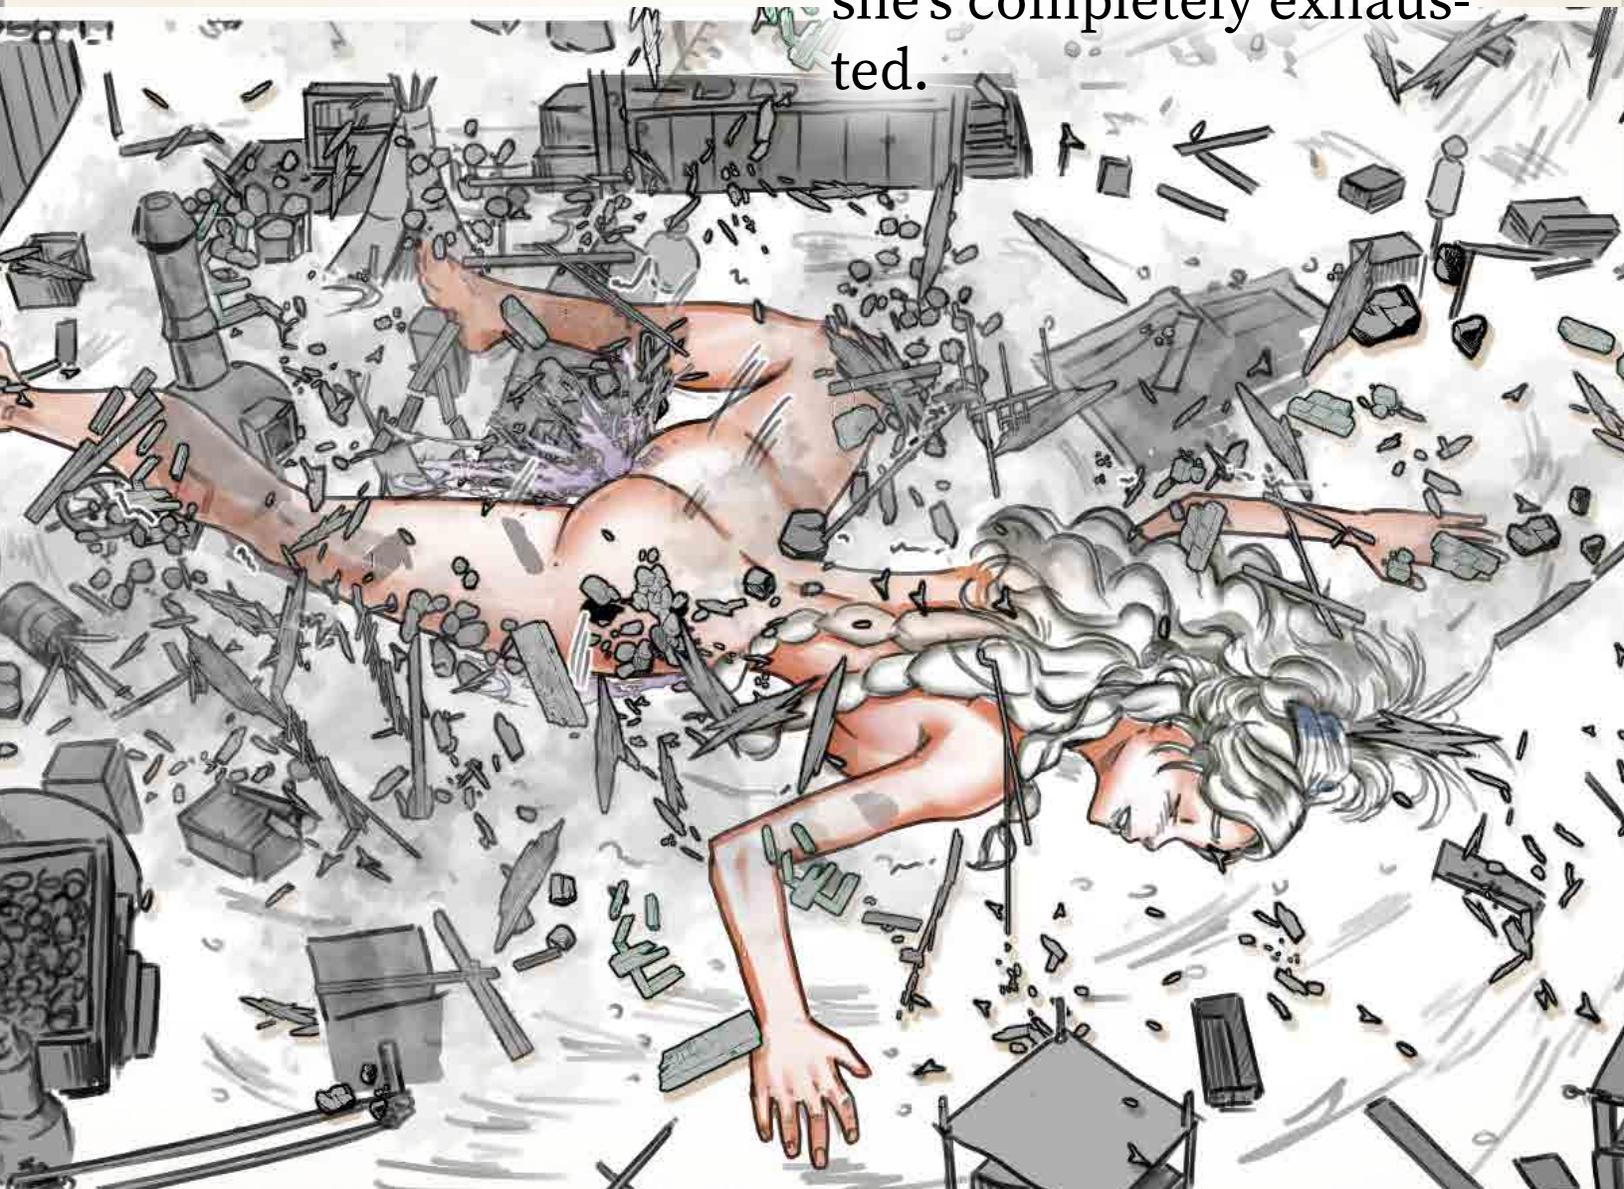

And she grows, and grows, and grows. The grotto becomes very small beneath her. Finally, in a final explosion, the dildo releases everything that remains inside her ass.

Panel 30

Gemma's legs buckle, and she falls onto the entire camp, leaving her ass exposed where the fluid is dripping.

Panel 31

—I have to see where the others are— she says, but she's completely exhausted.

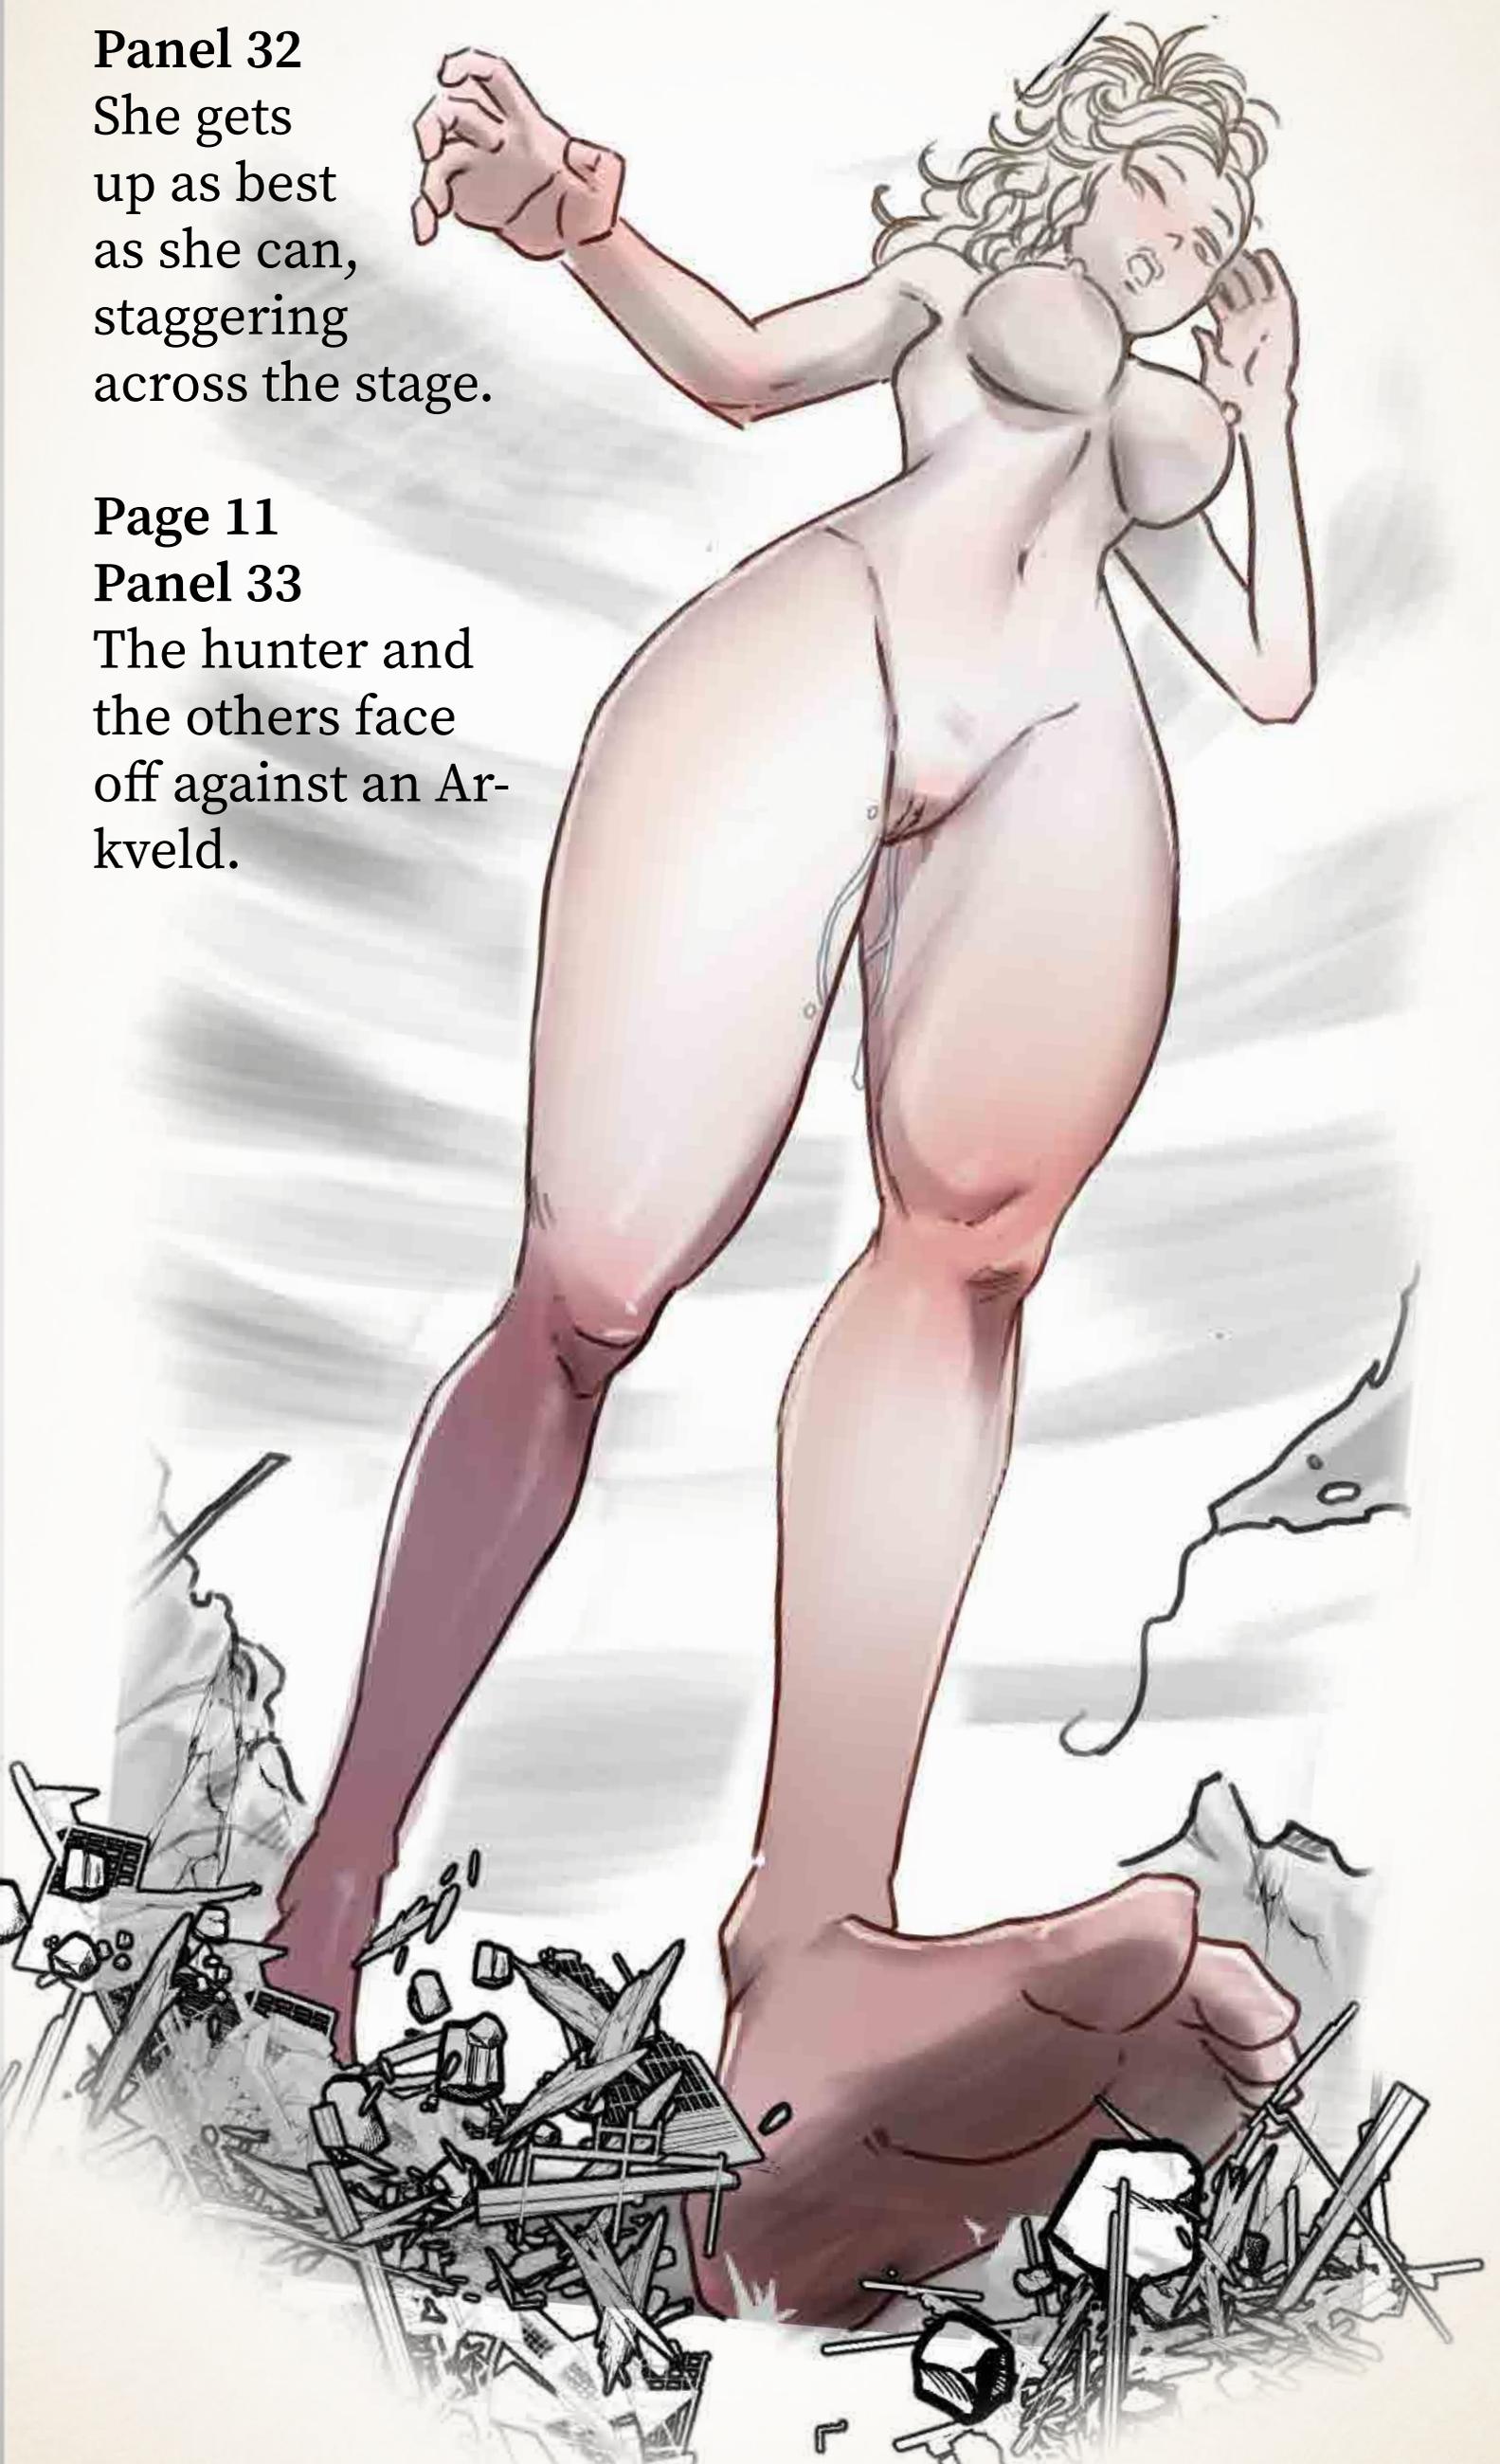

Panel 32

She gets up as best as she can, staggering across the stage.

Page 11

Panel 33

The hunter and the others face off against an Arkveld.

Panel 34

It's about to eat Olivia, but before it can do so...

Panel 35

A huge foot comes crashing down on it.

Panel 36

It finishes it off in one blow. With a single stomp. Everyone is stunned. Ge— Gemma...— Alma says.

Panel 37

Gemma smiles sheepishly. The only one who seems upset is Olivia.

—Really!? You at least left me a little bit of the substance?

Page 12

Panel 38

—Hehe— Gemma replies — it was supposed to be just a little! But I got carried away a bit.

Panel 39

—A bit!?!— Olivia says as she whacks her pinky finger with her hammer.

Panel 40

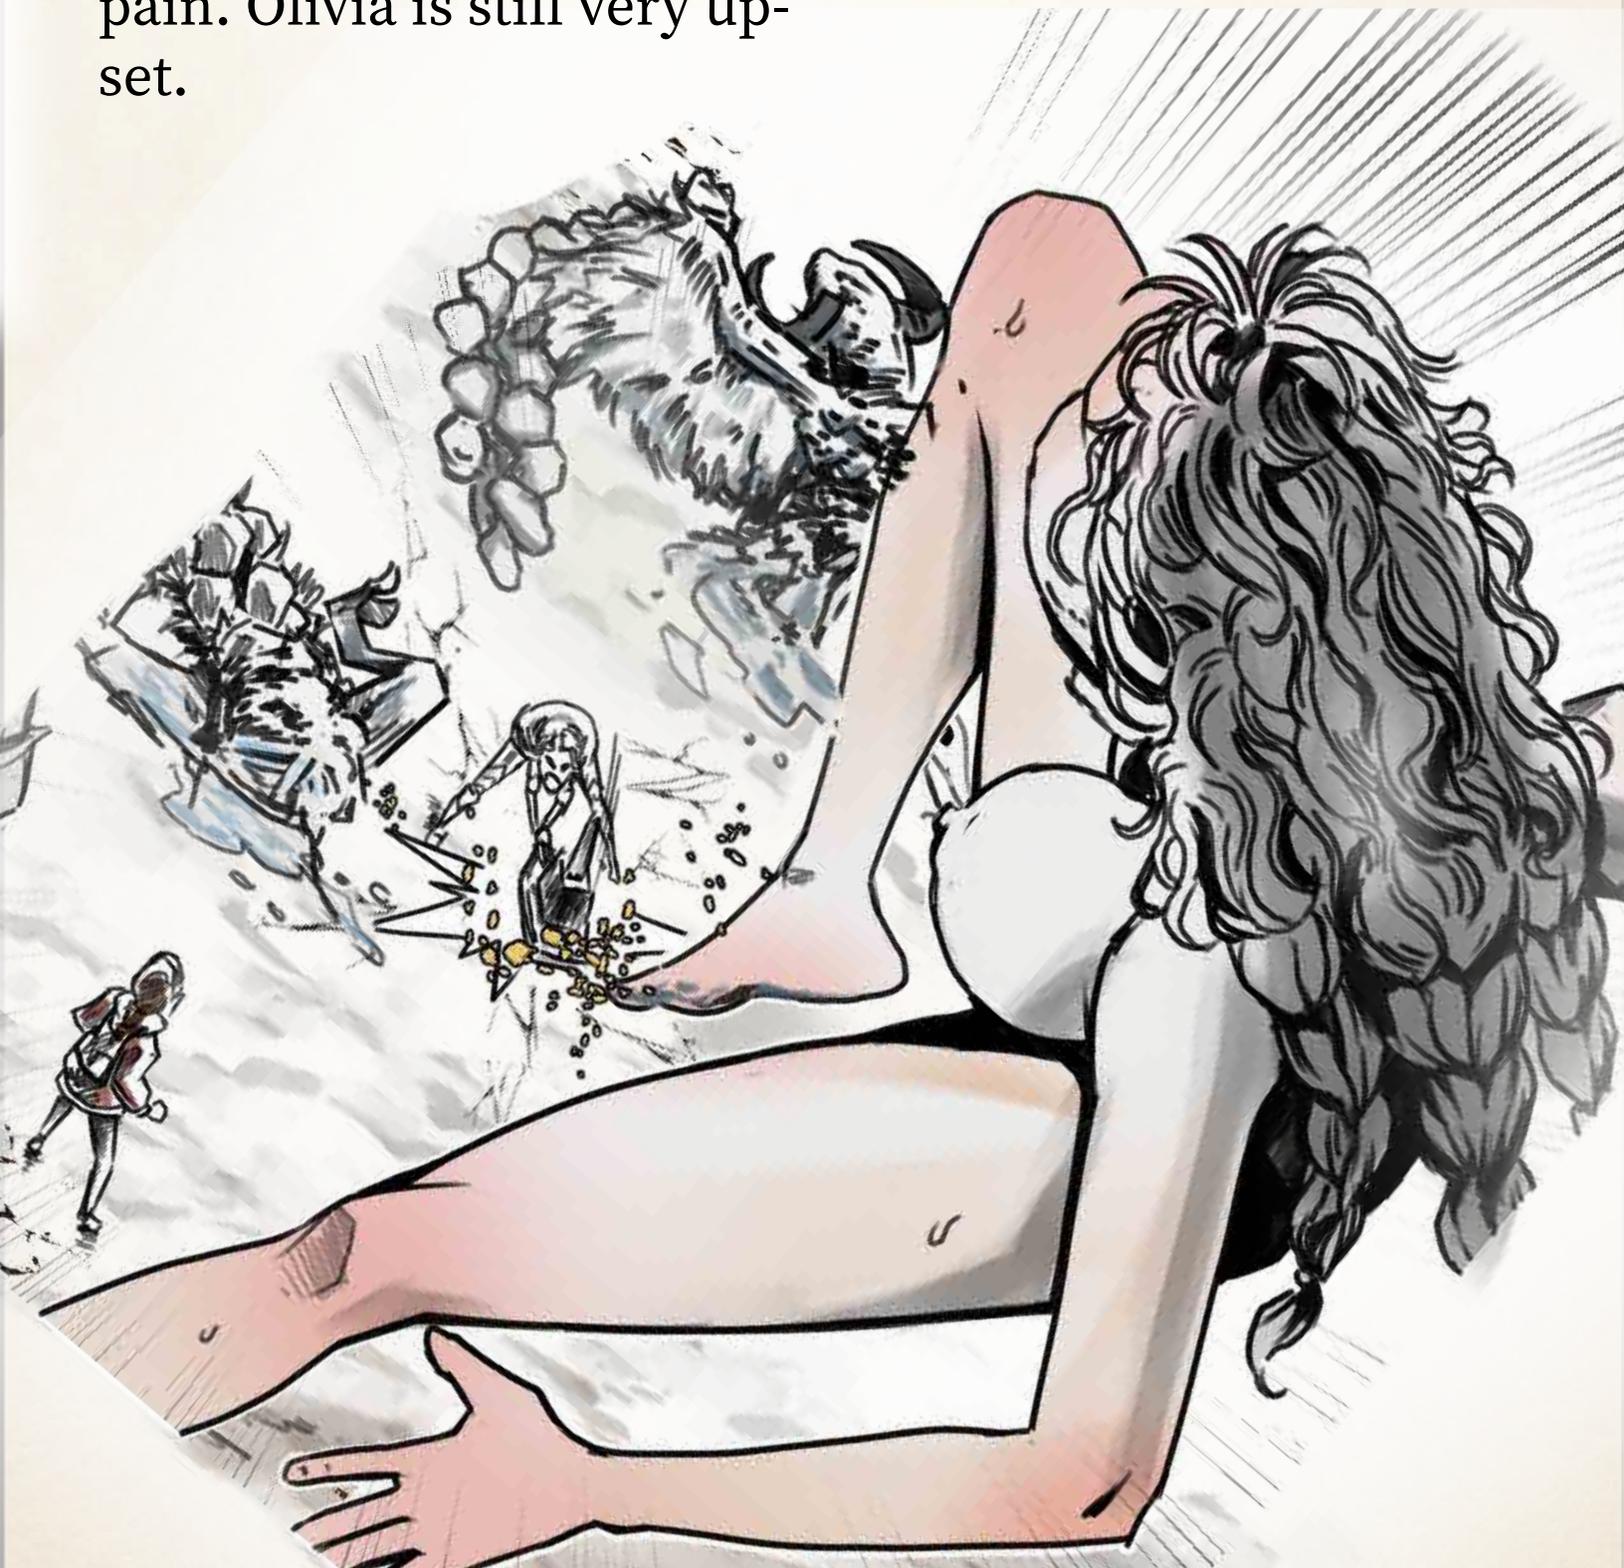

—Ouch!— Gemma exclaims, falling to the ground with her legs spread wide, kicking up a lot of dust. Her colossal, still very wet vagina is exposed. And she is sucking her finger to relieve the pain. Olivia is still very upset.

Panel 41

— We'd better get back to camp— says the hunter....

— Hmm, about that— Gemma says with a mischievous and embarrassed look.

In the background, far away can be seen the ruins of what was once their camp can be seen in the distance.

The End
